

Meet Gloria.

An AI companion with a presence.

A familiar face. A natural conversation. Gloria brings a voice-powered AI companion into the room through a striking hologram-style display.

01 A face to talk to

Speak naturally with an expressive AI character. Ask questions, explore ideas and get useful answers.

02 Plug and play

Plug in the unit, connect to Wi-Fi and begin interacting with an intelligent agent.

03 Integrated hardware

Android computing, microphones, speakers and a camera in one display unit.

Product visualization based on reference photograph.

21.5-inch

Full HD portrait display

4 GB + 32 GB

RAM + built-in storage

4-mic array

Dual 5 W speakers

Hardware specifications

Premium Android configuration
